

## Pittsburgh AIHA News – Winter 2026

### President's Message

**Greetings everyone!** I hope you all are off to a great start in 2026!

As we push through the final weeks of winter, I want to take a moment to reflect on the tremendous momentum we built in 2025. Our local section held eight events, including four outstanding facility tours—Alcosan, MSA Safety, RJ Lee Group, and Industrial Scientific—each offering valuable insight into the cutting-edge work happening across our region. These events were made possible thanks to the generosity of our corporate sponsors and the dedication of our members who planned, supported, and attended them.

The December business meeting was well attended, and we're excited about the upcoming year. Our Executive Committee is hard at work planning educational events that will help you stay current with industry trends and maintain your professional development credits. Highlights so far this year include two virtual sessions from the National AIHA Distinguished Lecturer Program. Mark Matchen, MS, MBA, CIH, FAIHA presented **Ethics for Health & Safety Professionals: Making the Right Choices** in January, and George Gruetzmacher, PhD, CIH, CSP, PE presented **Understanding Industrial Hygiene Exposure Assessments in February**. Thank you to Pittsburgh AIHA President-Elect and Program Committee Chairperson, Zane Frund, who helped organize these events in coordination with Joseph Hill, National AIHA Member Networks Coordinator and LS Liaison.

Looking ahead, mark your calendars for our [President's Luncheon at the LeMont on March 5, 2026](#), where we'll welcome National AIHA President Bradley King, PhD, MPH, CIH, who will provide a two-part presentation: 1. AIHA National Update, and 2. Evaluating Occupational Health and Safety Hazards at NIOSH. This is always a highlight of our year, and I encourage everyone to attend. We have fifteen (15) student sponsorships available for this event!

I'm particularly pleased about the strong connection we're building with our student sections at IUP and Slippery Rock University. With over 30 students joining us in Fall 2025, we're seeing the next generation of industrial hygiene professionals emerge right here in Western Pennsylvania. If you're interested in mentoring students or have ideas for how we can support their professional development, please reach out.

The energy from our growing student membership is a reminder of why strong local leadership matters — and that brings me to our 2026 Election. Volunteering to serve on the Executive Committee is one of the most meaningful ways you can contribute to the strength and success of our section — member participation is truly the key to everything we do. Open positions for the July 2026–June 2028 term include President-Elect, Treasurer, and Director. Nominations and candidate materials — including a short biography, statement of intent, and photo — are due by February 28, 2026. If you'd like to volunteer or nominate a colleague, please see details in this newsletter and on our website. ***Don't miss this opportunity to shape the future of Pittsburgh AIHA!***

Finally, if you haven't already renewed your 2026 membership, please do so soon. Your membership supports all of our local section activities and provides you with access to valuable resources including the AIHA University eLearning subscription. Together, we make Pittsburgh AIHA a stronger and more vibrant community for all.

***Darrick Bertig, CIH, CSP, CUSA, MS - President, AIHA – Pittsburgh Local Section***

---

## [Register NOW! Pittsburgh AIHA President's Luncheon at the LeMont](#)

Plan to join us on Thursday, March 5, 2026 for our signature annual event, the President's Luncheon, held at the historic [LeMont Restaurant](#) atop Mt. Washington. This event offers a premier networking opportunity for occupational health and safety professionals, paired with unparalleled views of the Pittsburgh skyline.

[Bradley S. King, PhD, MPH, CIH - President, AIHA](#) will lead a two-part session:

1. AIHA National Update: A briefing on the current priorities and strategic initiatives of the [National AIHA](#).
2. Evaluating Occupational Health and Safety Hazards at NIOSH: Dr. King will present case studies from the National Institute for Occupational Safety and Health (NIOSH), examining:
  - Fatalities and hospitalizations in the U.S. Oil and Gas Extraction Industry related to heat stress.
  - A Health Hazard Evaluation (HHE) of lead, noise, and heat exposures at an automotive battery recycling facility.

**The deadline to register is THIS WEEK - February 26!** See details on online registration on the meeting announcement page [HERE: 2026-03-05 President's Lunch](#)

**We have 15 student sponsorships** available for this event and encourage college students to sign up! See details on the meeting page.

Thank you to event sponsors – Barry Momyer (AM Health & Safety, Inc.) and Dr. Zane Frund for student sponsorships and Kelly Faulisi (U.S. Micro Solutions, Inc.) who will sponsor the drink ticket again this year!

---

## [Pittsburgh 2026 AIHA Election - Nominations Due Now](#)

Our local section depends on its members to volunteer for positions on the executive committee. Serving on the committee is a great way to become more involved in the local section, and you can claim certification maintenance (CM) credit toward your CIH. We are currently asking for nominations for the term serving July 2026- June 2028:

- President-elect, 2-year term followed by President (must also be a member of National AIHA)
- Treasurer, 2-year term (must also be a member of National AIHA)
- Director, 2-year term (need not be a member of National AIHA)

*NOTE: The American Board of Industrial Hygiene (ABIH) allows you to claim certification maintenance (CM) credit annually for local section office: local section President – 1 point; local section Officer or Director – 0.5 points.*

**If you would like to volunteer for elections or nominate someone, please email the Executive Committee at [info@pittsburghaiha.org](mailto:info@pittsburghaiha.org).** A short biography and statement of intent along with a photo are needed for any election candidates and **due by February 28, 2026**.

---

## [2026 Pittsburgh AIHA Membership Renewal – Past Due](#)

**[Membership dues for 2026 was due December 31, 2025.](#)** We have 50+ members who have not paid their Pittsburgh AIHA dues. An email was sent on 2/15/26 requesting payment. There are two ways to pay –

1. **National AIHA members** should check the box for Pittsburgh Local Section to include your LS annual **dues of \$35** for your Pittsburgh AIHA membership, or
2. NON-National AIHA members can pay dues directly to the Pittsburgh AIHA via the link: [https://www.paypal.com/cgi-bin/webscr?cmd=s-xclick&hosted\\_button\\_id=42WTZ9VE56U8A](https://www.paypal.com/cgi-bin/webscr?cmd=s-xclick&hosted_button_id=42WTZ9VE56U8A).

Information is also posted on the homepage. Any questions, please contact Christy at [ckirsch@pittsburghaiha.org](mailto:ckirsch@pittsburghaiha.org).

## Pittsburgh AIHA 2026 Corporate Sponsorship Drive Continues!

**Support the Pittsburgh AIHA as a Corporate Sponsor!** The benefits of a Corporate Sponsorship contribution of \$250 include:

- 2 free individual Pittsburgh AIHA annual memberships,
- Pittsburgh AIHA Homepage sidebar logo link,
- 1-year listing on the [Pittsburgh AIHA Corporate Sponsors](#) page,
- 1-year listing on the [Pittsburgh AIHA Consultants List](#) page,
- Recognition in Pittsburgh AIHA local section [newsletter](#).

**Thank You  
To Our Sponsors**

Corporate Sponsorship is renewable on an annual basis. Visit the [Corporate Sponsors Page](#) for current sponsors and application information - You can sign up online, or print the form to complete and mail.

## 2026 National AIHA eLearning Subscription Access NOW!

The National AIHA sent an eLearning notice to subscribers on 2/15/26. Please check your email for the calendar links or log into your online classroom to access the program. If you have any questions or need assistance, you can reach the National team at [DLAssistant@aiha.org](mailto:DLAssistant@aiha.org).

**This benefit is available only to ACTIVE Pittsburgh AIHA members who have renewed their membership for 2026. If you did not receive the eLearning email, please confirm that your membership is current.**

Please note that the eLearning program runs through December 2026.

**Log in and access the online classroom:** <https://learning.aiha.org>

- Review the information posted on the [2026 eLearning Subscribers page](#)

### Upcoming Webinars

You are automatically registered for these webinars, and can access them by clicking in My Live Events in the online classroom. Note: Webinars are scheduled in Eastern Time. Please ensure your calendar reminder is set to the correct local time zone, as it may not adjust automatically based on your settings.

- **Hazard Recognition and Control for the Emerging North American Cannabis Industry** (Wednesday, March 11, 1:00-2:30 pm ET)
- **Psychosocial Hazards 101: What Every OEHS Professional Should Know** (Wednesday, March 25, 1:00-3:00 pm ET)
- **Engaging the Workforce to Control SIF Risk: Applying AI, Safeguard Conversations, and the NSC SIF Prevention Model Using SafeWorkPlanAI** (Tuesday, April 14, 1:00-2:00 pm ET) - coming soon!
- **Making Practical Sense of Enormous Data Logs** (Wednesday, April 22, 1:00-2:00 pm ET) - coming soon!
- **The New Safety Standard: Mental Health as a Core Workplace Value** (Wednesday, May 6, 1:00-2:00 pm ET) - coming soon!
- **How to Conduct a PPE Risk Assessment - Practical Considerations for Industrial Hygiene Exposures** (Wednesday, May 13, 1:00-2:00 pm ET) - coming soon!
- **Controlling Silica Exposure in Stone Countertop Fabrication & Installation** (Wednesday, June 24, 1:00-2:00 pm ET) - coming soon!
- **Climate, Health, and Sustainability 101** (Wednesday, July 22, 1:00-2:30 pm ET) - coming soon!
- **Modern Noise Dosimetry: Limits, Misreads, and Better Solutions** (Wednesday, August 5, 1:00-3:00 pm ET) - coming soon!
- **OEHS Ethics in the Age of AI and Skeptical Stakeholders** (Wednesday, September 16, 1:00-3:00pm ET) counts toward 2-hour ethics requirement\* - coming soon!
- **Chemical Protective Clothing- title TBD** (Wednesday, September 30, 1:00-2:00 pm ET) - coming soon!

## OnDemand Session Recordings

Please note the following AIHA OnDemand sessions have been added to your subscription group.

- ToxShorts Occupational Exposure Banding Basics & ToxShorts Respiratory Anatomy, Physiology, and Toxicology (AIHA Connect 2025 OnDemand)
- Managing Roof Hazards on a Multi-Campus Healthcare Organization (AIHA Connect 2025 OnDemand)
- Objective Quality Evidence and Robust Records (AIHA Connect 2025 OnDemand)
- Welding Fume Exposure Factors (AIHA Connect 2025 OnDemand)
- Upton Sinclair Lecture Protecting Miners Insights Into Black Lung Disease and Regulatory Challenges (AIHA Connect 2025 OnDemand)

## U.S. Micro-Solutions, Inc. - New Ownership

[U.S. Micro-Solutions, Inc.](#) is proud to announce its acquisition by longtime team member **Kelly Faulisi**, marking an exciting new chapter for the environmental microbiology laboratory. Kelly joined USMS in 2016 and has since contributed in nearly every area

of the company—from sample receiving and data entry to analysis and quality control—giving her a uniquely comprehensive understanding of both operations and client needs.

Former President Deanna Kiska shared her gratitude for the opportunity to build upon the legacy established by her father, Herb Layman, who founded the business in 1996. As she steps away to enjoy more time with family, she expressed full confidence in Kelly's leadership and commitment to the company's core values.

Kelly emphasized her dedication to preserving the culture, quality, and personalized service that define USMS, noting her pride in continuing the company's status as a small, privately held, woman-owned business. She credits the USMS team for their ongoing excellence and looks forward to driving innovation and growth while maintaining the high standards clients have come to expect.

# SKC RENTAL SOLUTIONS

Quality Field-ready Equipment, Fast Service, Lowest Prices

Pop-up projects, emergencies, and day-to-day occupational exposure sampling and monitoring are no problem when you have SKC Rental Solutions.

✓ **Require field-ready sampling equipment fast?** SKC is there with our reliable, high-quality rental fleet

- High and low flow air sampling pumps, including the Touch Series
- NoiseCHEK Personal Noise Dosimeters
- chek-mate® Flowmeters
- Size-selective samplers
- Accessories

✓ **Want quality equipment but don't have a large budget?** SKC is there with the lowest rental prices available.

✓ **Need support?** SKC experts are here to help you.

With SKC Rental Solutions equipment, quality, and support in your toolbox, you can take on sampling with confidence to protect the health and safety of workers.

Contact **Dennis Collins** at **800-752-8472** or visit [www.skcinc.com/rental-request](http://www.skcinc.com/rental-request)

Science. Serving People.®

## Welcome to the following NEW Pittsburgh AIHA Members:

- Kimberly Anderson, Insight Exposure & Risk Sciences Group
- Courtney Bobik, Indiana University of Pennsylvania
- Daniel Braedt, MSA Safety
- Cory Breindel, SKC, Inc.
- Kelly Faulisi, U.S. Micro-Solutions, Inc.
- Brett Fouser, U.S. Steel is a dual CIH+CSP with 10+ years EHS experience based out of Pleasant Hills, PA. He currently serves as the lead industrial hygienist and RSO for U. S. Steel Mon Valley Works - A fully integrated, multi-facility steel manufacturing operation supporting 3,000+ employees.
- Bianca Maroun, Rettew
- John Morgan, MES Life Safety
- Rudy Shetler, Indiana University of Pennsylvania
- Kathy Siuzdak, SKC, Inc.
- Michele Twilley, DrPH, CIH - is the resident Certified Industrial Hygienist with the American Industrial Hygiene Association. She has over 38 years of experience in providing emergency spill response, environmental health hazard investigations, environmental remedial investigations and feasibility studies, risk assessments, indoor environmental quality and occupational hygiene consultation. Her work has been performed on military installations in industrial facilities, housing, research laboratories, government, healthcare, and educational buildings throughout the northeast and mid-Atlantic United States. Beside the CIH, she has training in and has held licenses and certifications for asbestos, lead paint, drinking water, and hazardous waste operations and emergency response. She received her Bachelor of Science degree from Towson State University in Natural Science with an Environmental Science Concentration in 1988, her Master of Health Science in Environmental Health Science, Industrial Hygiene and Safety from Johns Hopkins School of Hygiene and Public Health in 1998, and her Doctor of Public Health degree from Johns Hopkins University, Bloomberg School of Public Health in 2008. She also earned a Certificate in Risk Science and Public Policy from Johns Hopkins in 2002.

Prior to joining AIHA, she owned and operated Aria Environmental, Inc. from 2003- 2024. Aria continues on as a small woman-owned environmental and industrial hygiene consulting practice in central Maryland. She joined AIHA where she serves as a technical resource to staff and supports AIHA's mission of advancing the science and practice of OEHS. She is also the manager for the AIHA Guideline Foundation which is supported by a global committee of volunteers comprised of industrial hygienists, inhalation toxicologists, and physicians who produce the AIHA Emergency Response Planning Guide (ERPG) and the Occupational Exposure Limits (OELs).

***We are continually growing and always looking for new members to join the Pittsburgh AIHA community. Help us spread the word to anyone who may be interested. Membership details are available at the link below: <https://www.pittsburghaiha.org/joinmembership.html>.***

## National AIHA News and Updates

### **Government Relations Updates & Reminders:**

The **GR town Hall** is currently scheduled for **February 24, 2026**. You may register using this link: [REGISTER NOW](#)

**REMINDER:** AIHA is asking local section leaders to share state-level legislative and regulatory updates that may impact your state. This ongoing effort helps keep our government relations information timely and accurate.

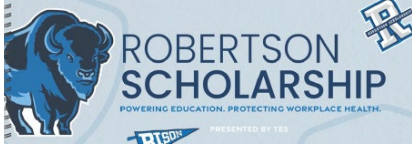

Please complete the State Legislative & Regulatory Intelligence Form with any relevant updates. Only applicable fields are required, and all input is greatly appreciated. [GR Collection Form](#).

## New Sponsorship Opportunities for ECP and Students for Connect 2026

The AIHA Student & Early Career Sponsorship Program, provides full sponsorship (*registration fee, round-trip coach airfare, and three nights of hotel accommodations*) for U.S., Canada, and Puerto Rico members and registration-only support for others depending on available funds.

You may fill out this application below by answering a few basic questions: [ECP & Student Sponsorship Application](#).

## Introducing the Robertson Scholarship

This initiative was created to invest in the next generation of environmental, health, and safety professionals, the people who work every day to protect workers on the job and reduce the long-term health risks that can follow them into retirement.

To support this mission, TES has fully restored a 1980 CJ-7 Jeep and is offering it through a charitable giveaway. Every ticket purchased helps fund education and opportunity for students who will carry this work forward and help keep families and communities safe for generations to come.

The Jeep winner will be announced live during the closing session of the American Industrial Hygiene Association (AIHA) Connect Conference in New Orleans on June 3, 2026.

In partnership with the American Industrial Hygiene Foundation (AIHF), the Robertson Scholarship will be made available to students pursuing careers in environmental, health, and safety. AIHF's national network and resources allow this opportunity to reach current and aspiring young professionals across the country, extending well beyond Louisiana.

100% of all ticket proceeds will be donated to support this scholarship.

If this mission resonates with you, we invite you to purchase a ticket to win, become a sponsor, share, or help spread the word. **Tickets are now available:** <https://lnkd.in/ee6AwTuw> **The Jeep winner will be announced June 3, 2026!**

## New Healthier Workplaces Show Episode

If you have not watched it before, the Healthier Workplaces Show is AIHA's bi-monthly video podcast featuring conversations with leaders across the OEHS profession. The latest episode spotlights Donna M. Doganiero, CIH, who reflects on her more than 50-year career and her impact on industrial hygiene and occupational health.

Watch the episode here: <https://www.aiha.org/public-resources/healthierworkplaces/healthier-workplaces-show-video-podcast-i...>

Conference & Expo for  
OEHS Professionals

Live & Virtual Conference

## AIHA Connect 2026 – Key Dates at a Glance

**New Orleans, LA**  
**June 1–3, 2026**

**Pop-Up Education  
Proposals Due:**

*Jan. 14, 2026 – Got a fresh idea? Submit your session!*

**Exhibitor Registration:**  
*Early 2026 – Booth selection opens soon!*

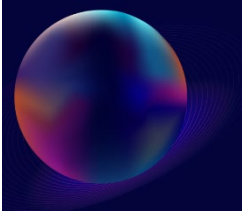

**Early Bird Registration  
Ends:**  
[Spring 2026 – Save on conference fees](#)

**Final Program Release:**  
*May 2026 – Full schedule and speaker lineup*

**Conference Dates:**  
*June 1–3, 2026 – Live at the Ernest N. Morial Convention Center*

**[Stay updated at  
aihaconnect.org](https://aihaconnect.org)**

## Smaller Proton Confirmed Submitted by Frank Pokrywka, Pittsburgh AIHA Treasurer

A proton's radius measures [0.84 femtometers](#) (trillionths of a millimeter; link free w/email), according to a study published yesterday in Nature. It is the most precise measurement of the subatomic particle to date.

For decades, a proton's radius was believed to measure 0.88 femtometers, with researchers relying on two methods to reach the figure. The first involves firing electrons at a hydrogen atom (containing a single proton), and the second involves measuring the radiation required to make an atom jump energy states. Over a decade ago, researchers applied these methods to muonic hydrogen, which, instead of an electron, has a particle roughly 200 times larger—allowing for more precise measurement and indicating a roughly 4% smaller proton size. Yesterday's study was [2.5 times](#) more precise than previous measurements, and confirmed the smaller radius.

The study aligns with measurements predicted by the Standard Model theory of physics, which describes all known particles and forces in the universe except gravity. Learn more about the Standard Model—including its limits—[here](#).

So when you have some time, and want to blow your mind, read up on the small world of subatomic particles. Fascinating stuff that truly is a center of the universe in which we live.

## OSHA's 2026 Priorities: What IH Professionals Need to Know

Source: *WorkCare / OSHA (2026)*

As we move through 2026, OSHA has signaled a busy year ahead for employers in construction, manufacturing, energy, and utilities. Here are some key areas to watch:

**Heat Illness Prevention.** OSHA is moving forward with a federal Heat Illness Prevention Standard to protect both indoor and outdoor workers exposed to extreme temperatures. Employers in high-heat industries should begin building formal programs now.

**Respirable Crystalline Silica.** Enforcement of existing silica standards remains a top priority, particularly in construction, manufacturing, and mining. Industrial hygienists should review exposure control plans and ensure monitoring practices are current.

**Expanded Recordkeeping Requirements.** Since January 2024, certain high-hazard employers must electronically submit OSHA Forms 300 and 301 in addition to Form 300A. OSHA is expected to ramp up enforcement and increase public data transparency in 2026.

**Workplace Violence Prevention.** OSHA has proposed new rules targeting healthcare and social services settings, with potential broader implications for other industries.

The bottom line: proactive industrial hygiene assessments and updated compliance programs will be essential this year. Members are encouraged to stay informed and engaged as these developments unfold.
